

THE 2500B ONE OF THE TOP PRODUCTS FOR 2009

The Giga-tronics 2500B series Fast-Switching Microwave Signal Generator with frequency range to 50 GHz was featured on the May 2009 cover of Microwaves and RF Magazine, and again on the cover of the December 2009 issue as one of the Top Products of 2009. The 2400C series and 2500B Microwave Signal Generators continue the Giga-tronics' long tradition of providing frequency synthesizers with both fast-switching speed and ultra-low phase noise.

Release Date: January 11, 2010
