Exhibitions

Meet the team at
Photonics West 2022

Booth # 3184

25-27 January, 2022

**Moscone Center
San Francisco.**

We're thrilled to be returning to Photonics West at the Moscone Center in San Francisco from 25-27 January, 2022.

Our US team will be on booth #3184 to show our latest products and discover new ways to solve your photonics test and measurement challenges across a range of applications and industries:

- **Optical transceivers 100G/400G/800G**
- **Coherent optical communications**
- **Silicon photonics test: wafer-level to packaged devices and integrated modules**
- **Automated manufacturing test**
- **Photonic Doppler Velocimetry**
- **Free-space communications**
- **Lidar and 3D sensing**
- **General purpose optical test and measurement instruments**

Plus, scan your badge to go into the draw to win a pair of the latest noise-cancelling headphones from Bose, the perfect travel accessory!
