

The 2nd IEICE MWPTHz Symposium

Call for Papers and Participation

Researchers working in microwave photonics, terahertz technologies, and photonics-related fields are invited to participate in this international symposium, bringing together researchers primarily from Japan and Taiwan. Young researchers and students are especially encouraged to join.

Date	November 23–24, 2026
Venue	ACE Biotech Conference Room and Entrance Hall, Hsinchu, Taiwan
Topics	Microwave Photonics, Terahertz Technologies, and Photonics-related Technologies

For details and information on registration and presentation submissions, please visit the following website:

Venue (ACE Biotech)

Participants at Last Year's Symposium (Taipei)

Two Days of Technical Presentations and Networking Opportunities

Technical Program <ul style="list-style-type: none">● Keynote Presentation : 45 min● Invited Talks : 30 min● Oral Presentations : 15 min	Important Dates <ul style="list-style-type: none">● November 23, 2026: Technical Sessions and Banquet● November 24, 2026: Technical Sessions and Technical Tour
---	---

Keynote Speaker

The Future of Terahertz Technologies: High-Speed Links and Integrated Photonic Systems

Tadao Nagatsuma (The University of Tokyo; Professor Emeritus, The University of Osaka; IEEE Life Fellow; IEICE Fellow and Honorary Member.)

Invited Talks

Kensuke Ikeda (Central Research Institute of Electric Power Industry, Japan)

Microwave Photonics for Utility Communication Networks Leveraging Power Transmission Towers — TOWER LINK: A Highly Reliable Network Through the Convergence of Optical and Wireless Technologies —

Junji Yumoto (The University of Tokyo, Japan)

A High-Performance 3D Hollow-Waveguide Platform for 300-GHz-Band Devices Enabled by RECILS 3D Printing and Electroless Metal Plating

Shihab Al-Daffaie (Eindhoven University of Technology, The Netherlands)

Graphene-Based Terahertz Devices: From Photomixers to Integrated Systems

※ Invited speaker information will be updated as additional speakers are confirmed.

Organizer: IEICE MWPTHz Research Committee | Co-organizer: IEICE Taipei Section | Sponsor: ACE Biotech

※Program details and technical tour arrangements are subject to change. Please refer to future updated information.
